New police chief for Waveland

Mike Prendergast

BY CASSANDRA FAVRE
Staff Writer

Waveland Mayor Mike Smith on Wednesday announced the appointment of Assistant Chief Michael Prendergast as Waveland's new police chief.

Prendergast replaces current police Chief David Allen.

After the meeting, Smith said that Allen "is one of the best in the state of Mississippi when it comes to cybercrimes."

"I wanted to put him in a position that would allow him to be able to expand his ability and make Waveland shine as one of the best in the state of Mississippi," Smith said. "As police chief, he did not have the leverage in order to do that."

Smith said he offered Allen the position of chief investigator as well as cybercrimes.

Allen said Wednesday he had accepted that position.

Smith said that Prendergast has worked with the Waveland Police Department for the past 35

Students from Our Lady Academy, Hoy Trinity and St. Stanislaus on Friday take part in the "March for Life" in Bay St. Louis.

Led by the Knights of Columbus Color Guard, students from Holy Trinity Catholic School, Our Lady Academy and St. Stanislaus

College on Friday took part in the 46th annual nationwide "March for Life."

The theme of this year's march was "Unique from Day One."

The first March for Life, which was founded by Nellie Gray, was held on Jan. 22, 1974,

on the West Steps of the U.S. Capitol, with an estimated 20,000 supporters in attendance.

According to the Catholic Diocese of Biloxi, "March for Life is a premiere national gathering of all denominations to protest the Roe vs Wade deci-

sion."

On Jan. 22, 1973, the Supreme Court made abortion legal throughout the United States in the decisions in Roe v. Wade and Doe v. Bolton.

MDOT officials on Thursday worked on installing signal poles at the Hwy. 603 and Kiln/Waveland Cutoff.

BY CASSANDRA FAVRE

This week, the Mississippi Department of Transportation began installing signal poles at the intersection of Kiln/Waveland Cutoff

Road and Highway 603, MDOT Public Information Officer Jason Smith said.

The work is part of the Highway 603 and 43 intersection improvements project, he added.

Hancock deputies seize more than 3,600 doses of illegal Fentanyl

SEA COAST ECHO

On Thursday, agents of the Hancock County Sheriff's Office Narcotics Division seized approximately 370 packaged units of pharmaceutical-grade Fentanyl from a location within the city of Waveland, according to a press release issued by narcotics Division Commander Jeremy Skinner.

"The seizure took place as part of an active investigation into burglary and narcotics trafficking," Skinner said. "The investigation is ongoing and potential suspects have been positively identified."

Skinner said the Fentanyl was located as a

result of tips and information generated during the course of the investigation, and that it was recovered from an open wooded location that could have been easily accessed by anyone, including children playing in the area.

"A standard medical dosage of Fentanyl is approximately 50 micrograms," Skinner said. "The approximate total standard medical dosage units recovered today was in excess of 3,600, which could have potentially resulted in hundreds of fatalities, if sold or consumed by street drug users, either by itself or if mixed into other illicit drugs."

"Today's seizure was

"We are installing a traffic signal at that intersection due to accidents and the high volume of traffic that

uses Kiln/Waveland Cutoff Road," Smith said.

Bay St. Louis Mayor Mike Favre said the city contacted MDOT about installing a traffic light at the intersection after a Bay St. Louis firefighter was injured in an accident last April.

"It's been a long-needed project,"

Favre said. "Hopefully this will slow people down and reduce the number of accidents in that area."

Smith said the project began last June and is scheduled to be completed about mid-to-late March, depending on weather.

Here are some facts to consider:

- Alcohol permanently affects the brain development of teenagers. The human brain isn't fully developed until age 25.
- Teens are more likely to drink if their parents condone the behavior.
- Teenage alcohol consumption increases the risk of alcoholism and drug abuse in their adult years.
- If underage drinking takes place on your property, you can be held legally responsible for what happens during or after the event, even if you don't provide the alcohol.

Bay police, Hancock deputies net three in undercover BSL drug bust

SEA COAST ECHO

Officers of the Bay St. Louis Police Department and the Hancock County Sheriff's Office on Wednesday worked together on a drug raid, netting three suspects and seizing methamphetamine and drug paraphernalia.

"The arrest was a result of an undercover operation which concluded with a search warrant being executed on the 400 block of

Jonathan Alexander

Pecan Park Drive in Bay St. Louis," Bay Police Chief Gary Ponthieux Jr. said in a press release Friday. "As a result of the search, officers and

Natalie Brown

deputies seized approximately five grams of methamphetamine, digital weight scales and drug packaging bags. Officers and deputies also seized

Bryan Thompson

drug paraphernalia which included pipes and syringes.

Those arrested included:

- Bryan Thompson, of

Bay St. Louis, who was charged with possession with intent of methamphetamine;

- Jonathan Alexander, of Waveland, who was charged with possession with intent of methamphetamine; and
- Natalie Brown, of Pass Christian, who was charged with possession of drug paraphernalia.

Thompson was transported to the Hancock County Jail under a \$10,500 bond set by Justice Court Tommy

Carver, Ponthieux said.

Alexander was transported to the Hancock County Jail under a \$15,500 bond set by Carver.

Brown was transported to the Hancock County Jail and released.

Thompson and Alexander were still being held at the jail at press time Friday on a "hold" order from the Mississippi Department of Corrections, jail records show.

Waveland talks boil-water notices and construction at MLK Park

BY CASSANDRA FAVRE
Staff Writer

The Waveland Board of Mayor and Aldermen on Wednesday discussed problems with the city's recent boil-water notice.

Alderman Jeremy Burke said that there are instances when breaks are unexpected, such as if a contractor accidentally breaks a line.

However, Burke said, this was an annual test.

"There was a slight possibility that something could go wrong," he said. "I think I, as a resident of Waveland, would have liked to have known ahead of time that there was a test going on."

Burke suggested the city keep prepared press releases.

"It's one voice," he said. "Waveland looks ridiculous and especially all of us on the board when we don't know what's going on because we don't have the answer."

Burke said that some people don't have computers or televisions. He also suggested placing signs on major streets announcing boil water notices.

Public Works Director Brent Anderson said that during the annual inspection the pressure relieve valves didn't open fast enough.

Mayor Mike Smith advised residents to sign up for emergency notifications on the city's website

at www.waveland.ms.gov.

He added that — in addition to boil water notices — residents will be advised of emergency situations such as hurricane evacuation information, etc.

In a separate matter, the board discussed the remaining funding for construction of the community center at Martin Luther King Park on Herlihy Street.

The original estimated cost for the project was about \$333,000.

The city received three bids, all of which came in over the original estimate: D.N.P., Inc. at \$466,200; Samuel Day Construction at \$477,000; and David Rush Construction at \$488,000.

Last week, board members went to Jackson and met with representatives of MDA, Alderman Bobby Richardson said.

"They were already aware of the prices that came back on the bids," he said. "We spoke to them about the need of this community center back there and they were real positive about it. We walked out of there feeling positive about it."

Richardson said that on Tuesday, Smith received a call from MDA and that they will completely fund the rest of the project.

Smith said the city had about \$299,000 to start the project with, which will be phase one. The money the city was awarded this week is from a different fund,

Smith said, will be phase 2 of the project.

"It was in the amount of \$269,708," Smith said. "So it's above and beyond what we need. With the help of our wonderful attorney, hopefully we can use the rest of that funding at that same park to do other things that's needed there."

In other action:

The board approved a motion to spread on the minutes the following appointments to the Planning and Zoning Commission: Ward 1 - Michael Adams; Ward 2 - Clarence Harris; Ward 3 - Judy Boudoin; Ward 4 - Charlotte Watson; and the mayor's appointment - Jim

Meggett.

The board approved a motion to spread on the minutes the following appointments to the Civil Service Commission: Ward 1 - Josh Holmes; Ward 2 - Myrna Saeger; Ward 3 - Buddy Bourn; Ward 4 - Wesley Benson; and the mayor's appointment - Alfred "Tiger" Harris.

The board approved a motion to accept the Jack A. & Gertrude W. Wilson Animal Welfare Fund grant in the amount of \$16,645 (\$8,000 for fencing and \$8,645 for necessary equipment) for the creation of a dog park in the city.

The next meeting is scheduled for Feb. 5 at 6:30 p.m.

New service will offer free non-emergency medical transportation for Hancock County veterans

BY GEOFF BELCHER
News Editor

Representatives from four different veterans groups on Friday dedicated their new "Hancock County Vans for Vets" in Waveland.

"I think it's the best thing that ever happened to Hancock County," American Legion Post 77 Adjutant Gary Geoffrey said Friday. "It's a need, not a want. The veterans of Hancock County need this."

Legion Post 77 -- including the Son of the Legion and the women's Auxiliary -- joined with VFW Post 3253 of Bay St.

Louis, Lakeshore VFW Post 4808 and Kiln VFW Post 6285 to create Hancock Vans for Vets, a non-profit organization.

"Through the support and donations of each of these veteran organizations and the generosity of two individuals skilled in vehicle painting and detailing," according to a Post 77 press release, "a donated handicapped accessible van has been refurbished and is ready to begin transporting veterans of Hancock County to and from medical appointments. All veterans from Hancock County in need of non-emergency medical transportation will be transported to and from their

appointments free of charge."

The van was originally owned by veteran Roddie Bilbo, who became sick and gave it to his brother Dale Bilbo, asking him to donate it to a good cause for veterans, Sons of Post 77 Cmdr. Jay Fountain said. After Roddie passed away, Dale contacted the post to see if it would be interested in creating an idea to make good use of the van.

Fountain, Geoffrey and Post 77 Cmdr. Louie Smolensky called on other veterans to join in the effort.

Each of the participating organizations contributed \$400 to create a bank

account for the charity to start repairs and cover other expenses.

Michael Fountain painted the van for free and Dereck Ladner of D&M Graphics donated the art and lettering, Geoffrey said.

Pastor Mike Ramsey blessed the van on Friday, and Dale Bilbo christened it. Fountain then presented Bilbo with a certificate of appreciation from the organization.

If anyone would like to make a donation to Hancock County Vans for Vets in memory of a veteran, please contact Fountain at 228-623-8555. All donations will be appreciated, organizers said.

Thinking about Health: Health care, other income issues combine to complicate life for retirees

Not long ago, the news site ProPublica published an important story about employers who, in their quest for a younger and cheaper workforce, were pushing out “older” workers – often those in their early 50s. Crunching data from the Urban Institute, reporters found that 28 percent of stable, long-time employees sustain at least one damaging layoff between turning 50 and leaving the workforce for retirement.

While the story was about the financial impacts on laid-off workers’ savings and retirement, it was also about a lot more. It was also about health care – the kind those workers would be able to afford during their forced early retirement and then during their more traditional retirement after age 65.

Health coverage presents a short- and a long-term problem. While some of those laid off workers might be offered insurance for a limited time, paying the high coinsurance, deductibles, and copays – not to mention surprise bills from out-of-network providers – is challenging when salary disappears or is reduced.

The Commonwealth Fund, a New York City philanthropic organization, presented some troubling study results last fall. The Fund teamed up with researchers at the Harvard School of Public Health and the New York Times and looked at a sample of seriously ill people. Even with insurance, more than one-third of respondents had used up all or most of their savings while sick. High deductibles, copayments, and treatments their insurance did not cover caused them to deplete their savings.

“What’s staggering here is there is no way people could know what they would be in for,” said Harvard professor Robert Blendon. “They don’t know what their insurance covers. The consequences for people are quite extraordinary.”

People in the Commonwealth Fund study who exhausted their savings because of illness face more financial hurdles as they approach Medicare age.

“Most households with workers nearing retirement won’t be able to maintain their living standard in retirement, based on our analysis of government statistics,” says Teresa Ghilarducci, professor of economics and retirement at The New School in New York City.

Ghilarducci runs The New School’s Retirement Equity Lab, which recently blogged about other disturbing news. Changes in the job market over the past 30 years have reduced older workers’ bargaining power. The Equity Lab found that older workers most likely would have to take money out of their 401(k) plans before retirement simply to meet living expenses. What’s more, many will have to find a new job, but that job will pay on average 25 percent less.

The Equity Lab reported if workers now between ages 50 and 60 retire at age 62, projections indicate that 8.5

Wicker Champions Effort to Protect Life

Taxpayer Funds Should Never Subsidize Abortion

The Supreme Court decision in the case of Roe v. Wade in 1973 represents a dark moment in our nation’s history. The decision handed down in that case legalized abortion in all 50 states by overturning state laws prohibiting it.

For 46 years, Americans have marked this anniversary during the month of January by participating in the March for Life, which attracts thousands of people to Washington, D.C., and other rallies around the country. These events remind the nation and the world that millions of Americans deeply believe abortion is wrong and needs to end.

This year’s March for Life coincides with Senate consideration of my bill, the “No Taxpayer Funding for Abortion Act.” As the bill’s name implies, this legislation would provide a permanent ban on using federal funds for abortions. Taxpayers should never be asked to subsidize a practice so many find morally wrong. Consideration of this bill also makes clear where each Senator stands on the

question of whether federal tax dollars should be used to fund abortion.

From the Senate

by Roger Wicker

U.S. Senator

Pro-Science is Pro-Life

Although my bill received a majority vote of 48-47, it failed to attain the 60 votes needed to advance in the Senate and is unlikely to be considered by the new Democratic majority in the House of Representatives. However, support for the pro-life movement is growing and scientific advancements and research are helping to win the debate.

Sonograms and ultrasounds were not widely available in 1973 when the Roe case was decided. Today these technologies have advanced and are readily accessible to expecting mothers. Parents-to-be can now have a photo of their child before he or she is born. These images are among the first to be displayed on refrigerators, desks, and social media.

It is harder and harder to deny an unborn child’s humanity when the face and hands can be seen, and the heart can be heard beating. This technology makes clear that these are children, worthy of love and protection.

Progress and Challenges Ahead

The Trump Administration continues to be the most pro-life administration in recent history. The administration’s “Protect Life Rule” prohibits family planning grants from being awarded to organizations that refer patients for abortions, or that co-locate with abortion providers. The President reinstated the “Mexico City Policy,” a pro-life measure that has kept U.S. funds from

going to international non-governmental organizations that perform abortions or promote them.

The Senate has also confirmed a record number of the President’s nominees to federal courts, including two justices to the Supreme Court. These conservative appointments will reshape the makeup of the federal judiciary for the next generation.

These efforts will not go unchallenged by abortion supporters. In fact, the very first piece of legislation passed by the House of Representatives when Democrats regained the majority earlier this month included a provision that would restore funding to international abortion providers.

This is not the first time the pro-life movement has encountered political obstacles. Through progress and challenges, the convictions and values of pro-life Americans have never wavered. To overcome today’s political environment and build on the successes of the past 46 years, I will continue to offer solutions and work to grow our coalition of support.

U of M should restore Meek's name to building or give him back his money

With no fanfare and little publicity, the University of Mississippi removed the name of Ed Meek from a building located on campus which had been named the Ed Meek building to honor him for his years of dedicated service to Ole Miss.

Sadly, Mr. Meek had made a public statement that the political left on campus claimed to have been a “racist” statement, thus successfully removing his name from the building which honored him.

Anyone who knows Ed Meek would tell anyone flat out that Ed Meek is

In fact, Mr. Meek had donated 5.6 million dollars to the University before being labeled a racist’.

Seems to me that Ole Miss should return Mr. Meek his money if he so desires and also seems to me that the current administration is wandering around like the children of Israel, entirely lost, a sad commentary of the school which was the flagship of our colleges and universities.

million will be impoverished.

What happens when those tossed out of work early reach Medicare age? Many readers of these columns have told me they are just hanging on until they turn 65 when Medicare will pay their medical bills.

What they don't realize is that in the early 2000s Congress passed legislation to make Medicare beneficiaries pay more for their benefits. It was part of

the "more skin in the game" approach to controlling medical costs.

Rather than taking strong measures to curb health care inflation, Congress decided that beneficiaries who had to dig more deeply into their own pockets to pay medical bills would not use as many services. That was the theory, at least.

The 2003 law that gave seniors the drug benefit also called for income-related premiums for Medicare Part B, the benefits that pay for doctors and outpatient services. The Affordable Care Act required income-related premiums for the drug benefit. The higher the income, the more you pay.

Now single people with gross incomes over \$85,000 and couples with incomes over \$170,000 pay higher premiums. Only wealthier beneficiaries are paying the higher premiums right now, but proposals keep popping up that would require people with incomes as low as \$40,000 to pay a larger share of their monthly premiums for Medicare.

At the same time, good pension plans that would provide monthly payments in retirement have disappeared in favor of 401(k) plans, retirement savings plans that let workers save part of their paychecks before taxes are withheld. "For people approaching retirement now, the median

account balance in a 401(k) is only \$15,000 for those 55 to 64," Ghilarducci told me.

The shifts in the country's financial security arrangements and health coverage resulted from major policy changes the public knew little about. It will take major policy changes to reverse what is happening.

"There will be a lot of downward mobility," Ghilarducci predicts. "It can invite a political backlash that we haven't seen in generations."

Four dead in 2019 from heating-related fires

SEA COAST ECHO

JACKSON, Miss. – The State Fire Marshal Office (SFMO) wants to remind everyone to heat their homes safely as temperatures are expected to dip

below freezing Sunday night. Improper heating has already caused 4 fire deaths in 2019.

The most recent death was that of 72-year-old Mary Ann McMahon on Wednesday, January 16. McMahon's Lawrence

County home caught fire because a stack of firewood was placed too close to a wood-burning stove. Earlier this week, 66-year-old Shelton Hill died when his Rankin County home caught fire because a space heater was placed too close

to a bed.

"At this time last year, there had only been one heating-related fire death but we ended the year with 13," said State Fire

LENAMAY KINGVALSKY LEWIS

LENAMAY KINGVALSKY LEWIS

Lenamay Kingvalsky Lewis was born July 11, 1926 in New Orleans, LA to Angelo George Kingvalsky, Sr. and Anita Charbonnet Kingvalsky. Lenamay was a very humble person. She and her siblings learned at a very young age the responsibilities of mastering their assigned household duties because their father died at a young age, that required them to work adult jobs and chores. Lenamay attended Booker T. Washington High School in New Orleans, LA. She met the love of her life one summer vacation while visiting Waveland, MS with her girlfriend.

Arthur M. Lewis "Fuzzy" and Lenamay Kingvalsky Lewis united into Holy Matrimony on August 13, 1945. To this union five children were born.

Lenamay was a member of St. Rose de Lima Catholic Church in Bay St. Louis. She loved her church and the parishioners. She was a member of the Altar Society and a member of the Traditional Choir.

Lenamay was preceded in death by her parents, Angelo and Anita Kingvalsky; her husband of 61 years, Arthur Mark Lewis "Fuzzy"; brother, Angelo Kingvalsky, Jr.; sister, Helen Major; daughter, Marlana Lewis Harvey; step-son, Anthony Alexis and grandson, Charles Haskin, Jr.

On January 13, 2019 the Lord was ready for Lenamay to take her rest. She

had completed her assignments. Her reflections of Love, Service, Hospitality and Forgiveness are seen in each of her children.

She leaves to cherish her loving memories; sister, Marion Long of Los Angeles, CA; two sons, Arthur Lewis, Jr. and Larry Lewis (Elmyra) all of Bay St. Louis; two daughters, Christine Haskin and Denise Davis both of Bay St. Louis; fourteen grandchildren; a host of great, grandchildren and great-great grandchildren; numerous nieces, nephews and cousins; two sister-in-laws, Lydia Kingvalsky of New Orleans, LA and Mary Lewis of Gulfport, MS; brother-in-law, Edward Lewis, Sr. of Carson, CA and many friends.

Visitation will be held Tuesday, January 22, 2019 at St. Rose de Lima Catholic Church in Bay St. Louis from 9:00 a.m. until 10:00 a.m. with a Mass of Christian Burial at 10:00 a.m. Interment to follow at Cedar Rest Cemetery in Bay St. Louis. Edmond Fahey Funeral Home in Bay St. Louis is in charge of the arrangements.

State Fire Marshal to investigate alarm sales violations by out-of-state companies

SEA COAST ECHO

JACKSON, Miss. – The Mississippi State Fire Marshal Office (SFMO) has received reports of dishonest security alarm sales. Complaints indicate that some of these door-to-door solicitors have lied about what company they work for in order to gain access to homes. Once inside, they may have taken advantage of customers by removing existing security systems, installing new ones, and locking customers into a new contract with a new company.

If you believe you've been taken advantage of or had your security system replaced by a fraudulent company, please contact the State Fire Marshal Office by calling 601-359-1061.

"If someone comes to your door trying to sell an alarm system, they must

have a license and signed photo ID issued by the State Fire Marshal's Office. Ask them to show you those credentials," said Commissioner of Insurance and State Fire Marshal Mike Chaney.

Companies dealing with the sale, installation, and service of residential alarm systems in Mississippi are regulated by the Mississippi State Fire Marshal's Office, per the Mississippi Electronic Protection Licensing Act passed by the state legislature in 2006. An important part of the licensing process includes criminal background checks on those who sell and install these systems, as well as requiring these individuals to have the proper training to ensure competency.

If a salesperson comes to your door, be cautious of the following:

- Offers that promise a "free" system or

claims that your current system is old, out of date or in need of an upgrade or replacement.

- Claims that your home has been chosen as a "model" home and is eligible for a free system and/or reduced monitoring fee.
- Guarantees that you will receive a reduction in your homeowner's insurance when a system is purchased.
- Salespersons that come to your home claiming to be with your current company. Call your company and verify.
- Claims that your company has gone out of business or that your account has been purchased from your company. Call your company and verify.
- Claims of increased crime in your neighborhood. Call your local police and verify.

years.

"Back eight or nine years ago, when the city went through its financial troubles, he had to work his way back up from an officer up to the position of assistant chief and I felt that he deserved an opportunity," Smith said.

Prendergast said some of his goals included continuing on with cybercrime investigations; the creation of more neighborhood watch programs; and more officer/student interactions at Waveland's schools.

"I've been with the city for a lot of years," he said. "I have a good working

relationship with the community. I know a lot of people here and I like what I do. I'm here for the people."

The motion to spread on the minutes also included several other mayoral appointments: Ron Duckworth as temporary city clerk; Rachel Yarborough as city attorney; Tony Mallini as fire chief; Brent Anderson as superintendent of water and gas and utility department; P.J. Mauffray as municipal judge; Melinda Tucker as prosecutor; and Shane LaFontaine as mayor pro tem.

During the vote, Aldermen Jeremy Burke voted 'yes'; Alderman Bobby Richardson voted 'no'; Alderman Shane LaFontaine voted 'yes'; and Alderman Charles Piazza voted 'no.'

Smith cast the tie-breaking "yes" vote and the motion passed.

MLK Day weekend events

SEA COAST ECHO

As the nation prepares to celebrate the birthday of the late Rev. Dr. Martin Luther King, Jr. on Monday, Hancock County community leaders are already honoring his legacy.

Festivities began with a prayer breakfast on Friday at the First Missionary Baptist Church in Bay St. Louis. They will continue today beginning at 7 p.m. with a celebration in Dr. King's honor at the historic 100 Men Hall in Bay St. Louis.

The 2019 theme of the Martin Luther King, Jr. Celebration Banquet is "Commemorating the Legacy." This event will be a catered gala affair, featuring live local talents from area churches, and presentations of the 2019 NAACP Black Excellence Award and

Community Service Award.

The Black Excellence Award is given to an individual who has demonstrated significant achievement in the field of education.

The Community Service Award is given to a citizen of Hancock County who has exhibited long-term commitment mentoring the youth in social development, education and character building. The suggested banquet attire is "dress to impress."

Mississippi State Rep. Jeramey Anderson, District 110, will be the keynote speaker for the event.

A children's program is scheduled to begin at 4 p.m. on Sunday at St. Rose de Lima Catholic Church. The program will be followed by a fireworks show at MLK Park in Bay St. Louis, starting at 6:30 p.m., sponsored by

Powerhouse of Deliverance Church.

The celebration will culminate on Martin Luther King, Jr. Day, Monday, Jan. 21, with a celebratory march. The march will begin at 9:30 a.m. from MLK Park, Bay St. Louis and will progress down Washington Street to the Powerhouse of Deliverance Church, where a program under the direction of Bishop Jeffrey Reed, will be held commemorating the legacy of Dr. Martin Luther King, Jr. The program will begin at 11 a.m., followed by a reception.

The community is invited and encouraged to attend the MLK Celebration Banquet and all scheduled events for the Holiday Weekend. For information, or tickets to the banquet, please call 228-669-4400, or 228-342-5172.

100 Men Hall to host People Project

SEA COAST ECHO

The 100 Men Hall will host a photography project called The 100 Men Hall People Project for one week in February during Black History Month.

The 100 Men Hall invites the public to stop in and have their photo taken in a photography project that seeks to strengthen the heritage identity between the community and the historic 100 Men Hall.

This project is made possible in part by a grant from the Mississippi Gulf Coast National Heritage Area. The Hall has selected fine arts photographer Gus Bennett to photograph 365 Bay Saint Louis and people who have a history with the 100 Men Hall.

The Hall invites any person with a history with

the 100 Men Hall to come have a photograph taken by Gus Bennett starting Sunday, February 10 through Saturday, February 16. The Hall will be open all day during this week and no appointment is necessary.

Gus Bennett is a fine arts photographer who has documented the lives of New Orleans Black citizens for more than 25 years. His most recent series, "The New Orleans People Project," was recognized by the Lieutenant Governor's Office and featured at Essence Music Festival.

Each photograph will include a short text block based on the subjects' memories of and how their identity was influenced by their relationship to the Hall. On completion, these photographs will be shared with the

community in the following manner:

- One subject on one day for a year will be displayed on social media, the front marquis, and collected on the 100 Men Hall website and shared with local media.
- Movable kiosks will be installed permanently inside the Hall to display a rotating selection of the photographs with text blocks.
- The 100 Men Hall People Project, and all 365 photographs with their text, will be collected in limited edition bound book.

Tigers blank Hawks 4-0, Lady Hawks top Lady Tigers 4-1 on soccer field

BY JOSEPH W. GEX, II
STAFF WRITER

The high school soccer regular season is quickly coming to a close and the action is getting intense heading into the postseason.

In Class 4A boys action, there are three area teams that are still in the hunt for a postseason spot while the Lady Tigers have guaranteed their spot. In Class 6A girls action, the Lady Hawks have a chance to make the post-

season. The same can be said about OLA in Class 1A/2A/3A girls action.

On Tuesday, the Bay High Tigers shutout the Hancock Hawks 4-0.

Denham Lombard put the Tigers (10-9-2) on the board 1-0 with 21:05 left in the first half with a chip shot inside.

About six minutes later, Dawson Katsikos made the score 2-0 in favor of the Tigers.

Hancock got a couple of breaks to push the ball down to

the Tiger goal but could not finish the opportunities.

With about two minutes remaining in the first half, Liam McKweon made the score 3-0 for the Tigers.

Lombard added his second goal of the game with 21:32 left in the game to make the final score 4-0.

Bay High head coach Kelly Ross commented, "This was a good win for us. We were able to work on our formations in situational play and get ready for this

coming week which means our season. This coming week are two crucial games against division rivals and we all are vying for playoff spots."

The Lady Tigers (10-7-2) fell to Hancock (12-4-1) 4-1 but game details were not available.

The Pass Christian Lady Pirates (3-5-6) won their game against Harrison Central 1-0.

The OLA Crescents (7-7-1, 3-3) dropped their game with St. Patrick 1-0.

St. Stanislaus did not play on

Tuesday.

In upcoming action, the Bay High Tigers host Pass Christian on Tuesday, January 22nd while the Lady Tigers travel to the Lady Pirates. The Hancock Hawks host Harrison Central on Tuesday while the Crescents host Perry Central in a varsity double-header today. St. Stanislaus will meet Bay High on Friday, January 25th at Bay High to close out the regular season. See you at the games!

Area teams take court in HoopsFest 2019

BY JOSEPH W. GEX, II
STAFF WRITER

All four area teams are involved in Hoops Fest 2019 this year for the first time in recent memory. Pass Christian will battle Long Beach at 10am followed by St. Stanislaus and Hancock in a rematch from the first

game of the season at 11:30am. Bay High will take on St. Martin at 4pm.

There will also be a three-point contest at 7:15pm that will surely feature some of the area's best shooters.

In earlier action this past week, the Bay High Tigers were swept by the East Central Hornets. The Hornets shocked the Tigers

(13-7, 6-1) 33-26 while the Lady Hornets barely escaped with a 40-37 victory over the Lady Tigers (4-13, 1-4).

The Hancock Hawks split a pair of games with Gulfport on Tuesday. The Lady Hawks (11-9, 1-2) defeated the Lady Admirals 32-20 while the Hawks (4-15, 0-3) stumbled against the Admirals

69-48.

The OLA Crescents played St. Patrick but a result of that game is not known.

The Lady Pirates (18-3, 3-2) dropped their game with Moss Point 34-29 while the score of the boys game was not known at press time.

The St. Stanislaus Rock-a-chaws (8-13, 4-2)

defeated Vancleave 55-39 to win their fifth straight. Luke Ladner scored 19 points to lead the Rocks followed by Brandon Bordelon with 13 points. Dallas Payne scored nine points and was 88% from the line.

In upcoming action next week, the Tigers will travel to Long Beach on Tuesday, January 22nd. The

Hancock Hawks will travel to Pearl River Central while the Crescents entertain Resurrection on Monday. The Pass Christian Pirates will be set to travel to East Central while SSC will host Resurrection on Monday, January 21st and Vancleave on Tuesday evening. See you at the games!

Repurpose those Personal Floatation Devices

Been spending a little more time on land, but that's normally the way it goes this time of year. I'm always tinkering with tackle, breaking stuff, fixing stuff, and cleaning stuff in between fishing trips. This past week I had a fantastic idea fall into my lap, well technically my truck.

I was in the pick up line at my daughters school, and hear someone knocking on my window. Our friend, fishing buddy, and pediatrician, Dr Brandi Williams was barely visible behind the numerous life jackets in her arms. "I figured if anyone could use these, it'd be you", she said. Her two young boys, Henry and Gibson, grow just like weeds. They outgrow everything they own in no time, including their life jackets.

The Personal Floatation Devices (PFD's) she threw in my truck were in perfect

condition. She was right too, we will put those jackets to good use. We have numerous youth life jackets scattered between our seven boats, and you never seem to have enough. Some poor kid in those big groups always gets stuck wearing the orange "toilet seat). Hey, rules are rules.

So I wanted to offer a home to those life jackets y'all don't use anymore. Why not donate them to a charter service, yacht club, summer camp, or marine educational center. A simple Google search of places like this area should help you find a good home for your outgrown/unused PFD's. First make sure they are in good shape. If you have any doubts about their condition, the answer is NO. The ones that have been kept dry, out of the sun, with minimal use are the ones we want. If you wouldn't put your most precious loved one in it,

SHORE THING FISHING REPORT

chunk it in the trash. Think of a fun day you and the kids had in that life jacket, that's something to share with another kid that can fit into it.

Coast Electric employees participate in community cleanups on MLK Day of Service

SEA COAST ECHO

Kiln, Miss. – Coast Electric employees will be participating in community cleanups Monday, Jan. 21, as part of the national MLK Day of Service. Cooperative employees will be cleaning up roadways in Hancock and Pearl River counties and will be spending time in Harrison County working on the grounds of Lynn

Meadows Discovery Center.

Besides the community cleanups, Coast Electric offices are also collecting diapers for the United Way of South Mississippi's annual MLK Diaper Drive through Jan. 30.

"Part of Coast Electric's mission is to improve the quality of life in the communities we serve," said Coast Electric Vice President of Member Services and Public Relations Melissa Russo. "Our employees are

dedicated to that mission and to making our home a better place for our friends and neighbors."

Other electric cooperatives throughout the state are volunteering in their communities as well as part of a cooperative day of service coordinated by Cooperative Energy, Coast Electric's generation and transmission cooperative.

Location for Derelict Crab Trap Removal Program updated

SEA COAST ECHO

Biloxi, Miss. – The state Commission on Marine Resources voted Tuesday that the crab trap closure, set to take place Feb. 7 through Feb. 16, 2019, for commercial and recreational crab fishermen, will be in effect in all Mississippi territorial bays, bayous and territorial waters located one-half mile of the mainland shoreline.

The schedule for the 2019 Derelict Crab Trap Removal Program is as follows:

Feb. 7 – 13 – All commercial and recreational crab fishermen must use this time to remove their

own traps from all waters within one-half mile from the main shoreline. As a reminder, it is illegal to remove traps licensed to another person outside of the approved trap removal dates. This will be strictly enforced.

Feb. 14 – 16 - All traps remaining in the closure area will be considered derelict and will be removed and recycled. Volunteers may remove remaining traps from the closure area during these dates. Derelict traps may be dropped off at Mississippi Department of Marine Resources (MDMR) designated sites for recycling from 9 a.m. until 4 p.m. at Point Park in Pascagoula, Ocean

Springs Harbor and Pleasure Street Boat Launch in Bay St. Louis.

Feb. 17 – Beginning at 6 a.m., all active traps may be returned to the closure area and crab fishing may resume.

The Mississippi Derelict Crab Trap Removal Program has

removed and recycled over 21,600 traps since its inception in 1999. Volunteers interested in participating in this year's program can contact the MDMR Shrimp and Crab Bureau at (228) 374-5000 for more information.

Visit the DMR online at dmr.ms.gov.

Heating

Continued from Pg. 5A

Marshal Mike Chaney. "I cannot stress enough how important it is to properly use heaters and extension cords. Also, having working smoke alarms in your home could mean the difference between life and death."

As you prepare for cold weather, the State Fire Marshal Office offers these heating safety tips:

All heaters need space. Keep things that can burn, such as paper, bedding or furniture at least 3 feet away from heating equipment.

Use heating equipment that has the label of a recognized testing laboratory.

Never use your oven for heating.

Turn heaters off when you go to bed or leave the room.

Use portable space heaters with an automatic shut off so, if they're tipped over, they will shut off.

Place space heaters on a solid, flat surface.

Plug power cords directly into outlets and never into an extension

cord.

If the pilot light of your gas heater goes out, allow 5 minutes or more for the gas to go away before trying again, do not allow gas to accumulate, and light the match before you turn on the gas to the pilot to avoid risk of flashback.

If you smell gas in your gas heater, do not attempt to light the appliance. Turn off all the controls and open doors and windows. Call a gas service professional.

In wood stoves, burn only dry, seasoned wood. In pellet stoves, burn only dry, seasoned wood pellets.

Start the fire with newspaper or kindling, never with a flammable liquid, such as lighter fluid, kerosene or gasoline.

Keep the doors of your wood stove closed unless loading or stoking the live fire.

Allow ashes to cool before disposing.

Install smoke alarms in your home. Check alarms and replace the batteries at least once a year and replace the entire alarm every 10 years.

In the event of a fire, get out of your home, call 911, and do not go back inside the house for any reason.

Senator Philip Moran was born in Bay St Louis on March 6, 1961. He is married to the former Sheila Morris and they have two children, Lori and Alan, who is a City Councilman in Diamondhead. The Moran's are celebrating their 35th wedding anniversary this year. He is the owner of Philip's Pest Control, LLC., which he has operated for 35 years, having learned the trade from his father-in-law.

Philip is a former Hancock County Supervisor and served as Board President. He attended Mississippi State University where he earned a bachelor's degree in Business and Agriculture.

Senator Moran began his legislative service in 2012. Since then he has been one of the most effective legislators that the Coast has seen in decades. He advocated for and authored the lottery bill, a goal of his that was 20 years in the making. He also secured 35% BP

money for Hancock County, while other coastal counties received 25%. Sen. Moran serves on several committees to including: Wildlife, Fisheries and Parks (Chairman), Veterans and Military Affairs (Vice-Chairman), Senate Appropriations, County Affairs, Economic Development, Energy, Enrolled Bills, Highways and Transportation, Investigate State Offices, Labor, and Ports and Marine Resources.

Sen. Moran, a native of Hancock County, is a

member of the Catholic Church's Knights of Columbus Organization, the Hancock County Rotary Club, Hancock Chamber of Commerce, Business & Professional Association and the MSU Alumni Club.

"We look forward to Senator Moran leading our parade," the krewe said in a press release, "and he is honored to serve as Grand Marshal, stating that, 'I love the Krewe of Diamondhead parade because it is family-friendly!'"

Biscuits and Muffins and Quick Breads, Oh My!

BY LINDA BIGLER CONTRIBUTING WRITER

I love to make yeast breads especially when I need to take my stress out on an inanimate lump of dough. It is better therapy than paying \$100.00 an hour each week to a shrink for the rest of my life. In addition, it is better than doing 15 to 20 years for releasing my flying monkeys on my enemies, real or imagined. Today, I am in a Zen frame of mind, so we will skip the yeast and break out the baking powder.

The first recipe is for a quick bread that is a favorite of my family's. It is also a good way to get rid of those very ripe bananas on your counter.

Chocolate Chip Banana Bread

2 cups sugar
2 large eggs
1 stick (4 ounces) butter, softened
2 teaspoons pure vanilla extract
2 cups mashed ripe bananas
6 tablespoons butter-milk or sour milk
4 cups all-purpose flour
2 teaspoons baking powder
1 teaspoon baking soda
2 cups semi-sweet chocolate chips
1 cup chopped pecans
Preheat your oven to 350 degrees. Cream

together the first four ingredients in a large bowl.

In a small bowl, combine milk and bananas, set aside.

In a medium bowl, combine the flour, baking powder, and baking soda.

Alternately stir in the banana mixture and flour mixture into the creamed butter mixture. Stir by hand until just combined. Do not over mix.

Fold in the chocolate chips and nuts.

Divide mixture into 2 greased 9x5x2 inch loaf pans lined with parchment paper. Bake for approximately one hour or until the loves test done. Mini loaf pans can also be used, but the baking time needs to be adjusted.

Makes 2 loaves

Orange Juice Biscuits

2 cups all-purpose flour
1 tablespoon sugar
1 teaspoon baking powder
One half teaspoon baking soda
One half teaspoon salt
One fourth cup lard or shorting, chilled
2 teaspoons finely grated orange rind, grate before cutting orange
One half cup orange juice
Preheat oven to 425 degrees
Combine flour, sugar, baking powder, baking soda, and salt. Cut in fat with a pastry blender or

two knives until dough resembles small peas. Add orange rind and juice and combine until just moist.

Add more juice one teaspoon at a time if the dough is too dry. Place dough on a lightly floured surface and gently knead five or six times. Roll to about one half inch thick. Cut with a biscuit cutter. Place on a parchment lined baking pan with sides slightly touching. Bake about 10 minutes or until golden brown. Serve hot with butter and orange marmalade, if desired.

Makes about 12 biscuits

Cheesy Muffins

One and three fourth cups all-purpose flour
1 tablespoon baking powder
One half teaspoon salt
1 tablespoon sugar
4 ounces pepper Jack cheese, grated
1 large egg, lightly beaten
1 cup whole milk
2 ounces (one fourth cup) melted butter
Preheat oven to 400 degrees

In a medium bowl, combine flour, baking powder, salt and sugar. Stir in the cheese. Combine the egg, milk, and melted butter. Pour the liquid ingredients into the center of the dry ingredients. Lightly stir until just moist. Do not over mix or the muffins will be tough.

Line a muffin tin with cupcake papers and fill two thirds full. Bake for 25 minutes.

Makes 12

Cornbread with a Kick

1 cup yellow cornmeal
One half cup all-purpose flour
1 tablespoon baking powder
2 large eggs, lightly beaten

1 cup sour cream
1 cup cream style corn
2 tablespoons melted butter
2 pickled jalapeno peppers, chopped
1 cup shredded sharp Cheddar cheese
Preheat oven to 400 degrees

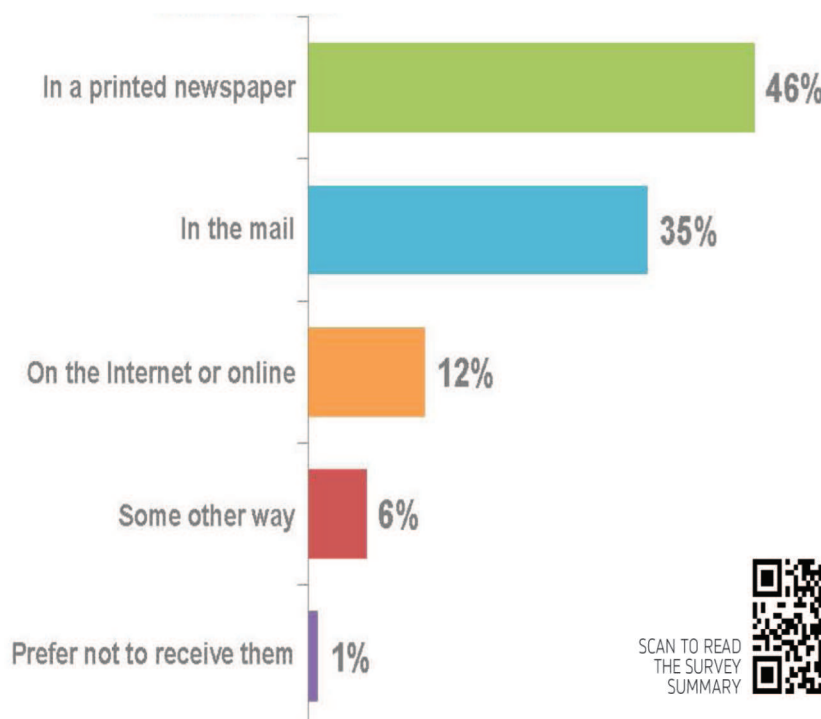

Combine first three ingredients in a medium bowl. Stir in the remaining ingredients until moistened. Do not over mix.

Heat a 10 inch baking dish in the oven and pour the batter into the hot baking dish. Bake for 25 to 30 minutes or until done, remove from oven and serve immediately.

Makes 8 to 10 servings

Czar is a 2 year old Terrier/Labrador Retriever mix who has endeared himself to our staff and volunteers with his happy disposition and fondness for everyone he meets. He is great with other friendly dogs, and he is always excited to see the kids when they approach his kennel. We can't understand why Czar has been continually overlooked for adoption. He came into the shelter as a stray, but in very good physical condition. He also has the most intense deep amber colored eyes and cool look. He was wearing a collar, but with no rabies, ID tags or microchip. He is just so sweet and jolly that we feel he was part of a family very recently. Czar keeps his kennel very clean, so we are hopeful that he is house trained, but we cannot guarantee it. He would be an awesome family pet, or be a fun partner for a single person or couple. Active retirees would also find a great companion in Czar. Please stop by the shelter at 7175 Texas Flat Rd, Kiln, and meet this loving boy. He is an all around great dog who has been waiting way too long for the unconditional love he deserves. Call 466 4516 for more information, and visit our Facebook page, Hancock County Animal Shelter, MS, to see more pictures of Czar, and of the many other adoptable animals looking for their forever homes.

SIN IS TEARING OUR NATION APART

Each July 4th America celebrates its freedom of religion, speech, and just about anything that was being dictated to us by a tyrannical government of European kings and queens of many years ago. Through the bravery of our forefathers and through their testaments of strength and will, America today can enjoy so much because of the prayers and perseverance of our founders. No one enjoys being told what they can do and when they can do it.

For the ones of us born in America, we should never suffer as many of our immigrant friends that are trying so desperately hard to become a citizen of this great nation. Just as in biblical times our brave men and women have fought for the opportunity of all of us to become and remain free. When other countries have tried to take over our land, our citizens have risen to the task of maintaining and securing our future.

We have remained a free nation through our belief and dependence on our heavenly Father. Our forefathers got on their knees and went to Him asking for guidance, protection, and wisdom and He has blessed them and us in so many ways. All of our leaders knew where true strength came from and were never ashamed to petition God in anything they attempted.

Today we continue to face adversity throughout the world. Many of our citizens have become very lax in their thinking and have conformed to the ways of the world. Many have forgotten what the Bible has always taught us and have

left their knees talking to the one and only true God because so many false prophets have sugar coated another way of life. Our family units are dissolving because of the sins of the people and many of our elected leaders are the reasons for this. We are becoming a nation of Godless leaders instead of continuing to be a nation of God fearing leaders and people. Allowing sin into our lives and corruption into our government is tearing apart this great nation.

In John 8:31-32 Jesus tells us, and this again was a time of people questioning His validity, "If you hold to my teaching, you are really my disciples. Then you will know the truth, and the truth will set you free."

It amazes me that the one and only book, the Holy Bible, was the strength and guidance of our founding fathers and we became a great and powerful nation and today we question the validity of it. Sin will tear apart people, family units, communities, and a powerful nation. We need to go back to our roots and trust in the one and only living God. Each July 4th America celebrates its freedom of religion, speech, and just about anything that was being dictated to us by a tyrannical government of European kings and queens of many years ago.

Through the bravery of our forefathers and through their testaments of strength and will, America today can enjoy so much because of the prayers and perseverance of our

much because of the prayers and perseverance of our founders. No one enjoys being told what they can do and when they can do it. For the ones of us born in America, we should never suffer as many of our immigrant friends that are trying so desperately hard to become a citizen of this great nation. Just as in biblical times our brave men and women have fought for the opportunity of all of us to become and remain free. When other countries have tried to take over our land, our citizens have risen to the task of maintaining and securing our future. We have remained a free nation through our belief and dependence

4. The General Membership Meeting was held immediately after the Christmas luncheon with 19 members present. Election of officers was as follows: President – Georgeann Luxion, Vice President – Cassandra Godbold, Tournament Chairwoman – Colleen Jones, Secretary – Marian Wideman and Treasurer – Cathy Weber. There were a lot of changes to the USGA rules for this year. Betty Bowen has provided us with the following website so that you can review the new rules: <http://www.usga.org/con->

tent/usga/home-page/rules-hub/rules-modernization/major-changes/major-changes.htm. Just to highlight a few, you do not have to remove the flagstick when putting – it is no longer a penalty if you hit it when you putt; there is no penalty for removing loose impediments, touching the ground, or grounding your club in a penalty area; you may remove loose impediments from a sand trap; time allowed to search for a lost ball has been reduced from 5 minutes to 3 minutes; when

dropping a ball, it is now dropped from knee height rather than shoulder height; hitting your equipment, or yourself, with the ball is no longer a penalty stroke; hitting the ball twice with your club (which I have done plenty of times from the sand trap) is no longer a penalty stroke – yay! These are a few. You can go to the USGA website and check out the rest. Play well and have fun in 2019.
